VOLUME 10

COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY, APRIL 17, 1907.

NUMBER 23

WORDS OF PRAISE

From The Wayne County Outlook For Hon. James F. Montgomery, of this City.

Judge James F. Montgomery, who was commissioned by the Governor to hold the special term of court which closed on yesterday left for his home at Columbia, Ky., this morning after having been engaged as judge of this court for more than four weeks.

A great number of important cases was tried during this term of court and Judge Montgomery endeavored himself to all of members of the bar, litigants and jurors by his universal kindness while on the bench. A number of Special Judges have held court here during the last few years and this is the first time that a judge has pleased all of the members of the bar, who speak in the highest terms of his ability as a lawyer.

Judge Montgomery made many friends while in our city and it is with universal regret that he leaves us. Many of the members of the bar have said that when another special court is called for this county that they will unanimously petition the Governor to re-appoint Judge Montgomery.—Wayne County Outlook.

NOT OVER THE PUMP.

Timber has been placed on the square for the purpose of building a band over the public well on the Court House square. We are for the Band—have been for it from its birth to date, but this move does not appear to be desirable from the standpoint of the public good. The well is not the place for the band. While the members of the Band would keep the premises in order so far as they could, yet they could not prevent a crowd from collecting. From a sanitary view, it cannot be justified, and the standpoint of beauty, it would be a failure. Why not fix the balcony of the Court House? That would put the Band on high footing, and it deserves the best in the town.

BARN BURNED.

Last Friday afternoon a barn belonging to Mr. W. H. Flowers, near Bliss, was burned, destroying a fine lot of hay, corn, oats, farming utensils of every description and one valuable horse. The loss is estimated at \$900 with no insurance. The barn was near Mr. Flowers' residence and it is supposed that it caught from a spark from the chimney of the house. When the fire was first discovered it was well under way and every effort possible was made to release and save all the live stock, but impossible to do so. Two were left to the ravages of the flames, but one made its escape which, in some way is unknown and unexplainable by its owner. Another barn near by containing much feed and stock barely escaped, it fired twice but was extinguished. Fortunately, Mr. Flowers was ready to respond in first notice of the fire as he was on the pony list and unable for field work. Due to his presence the stock, excepting a horse, and the other barn and its contents were saved. As we understand it the insurance on the barn that burned had expired a short time ago.

SUCCESS ASSURED.

Since the Standard Hardwood Lumber Co., installed their new Saw carriage three weeks ago, the mill has been running steadily. With this improved Machinery the output will now reach 15000 feet per day. The estimate taken recently shows that the Company has over 700,000 feet of lumber on sticks which is now being hauled to Campbellsville. This enterprise since its location here, less than a year ago has developed rapidly and promises to be a great benefit, not alone to Columbia, but also to the entire surrounding country. The Company employs upwards of thirty men.

Mr. W. D. Frazier, Manager of the Company here, has gained the confidence of the people by his direct and honest business methods and is personally well liked by all.

Mr. Walker Bryant also connected with the firm is well known and re-

spected by the entire community. His attention is given to the purchase of timber and lumber for the Company and also keeps the mill supplied with logs. Mr. A. W. Kreinheder, Treasurer of the Company from Buffalo, N. Y., who recently visited here expressed great satisfaction at the work so far done and bespeaks nothing but praise for the above named guiding the Columbia plant.

GOOD ROAD SENTIMENT.

Several of the committee appointed by Judge Barnett to procure petitioners in their respective districts for opening the polls in November for expression upon the question of issuing bonds, report easy sailing.

The good road sentiment has come to Pulaski to stay until the best results are obtained. All issues that may be brought into the question to check the spirit of progress will be side-tracked in favor of the main issue. That determined in all minds, the rest is easy. There are men in Pulaski that the people can and do trust, and to such men we will look with confidence to take hold of this great question and bear it aloft from every petty opposition and on to complete success.

Remember April 30, the day of the next meeting of the Good Roads Association, and see to it that your neighbors are on hands ready to help on the good work.—Somerset Journal.

SHARP—COFFEY.

On Wednesday, April 10th, at the home of Hon. John D. Sharp near Amandaville, Miss Mary Lee Sharp and Mr. L. P. Coffey, of Russell county, were united in the holy bonds of matrimony, the Rev. L. C. Winfrey, of Beck's Store officiating. The bride is the eldest daughter of Mr. J. D. Sharpe and one of the most beautiful and accomplished young lady's on Crocus creek.

The groom is a substantial citizen of Russell county.

ATTENTION MERCHANTS.

The Columbia Grocery Company sells only to merchants and will furnish the brands of flour made by The Columbia Roller mill or by Russell Creek Roller mill for the same price as at the mills. It protects your interests, gives the lowest price possible and asks your patronage. 23-1t

MAN'S SKULL CRACKED

Richard Newby, a well-known farmer of Cumberland county, was struck on the head with an ax in the hands of Sylvester Barger, it is alleged, and his skull fractured. It is said that the man had a dispute over a boundary line, and had been quarreling for quite a while when Lani Barger, a son, took up the quarrel and tried to cut Newby with the knife. Newby caught young Barger and was holding him to prevent any further use of the knife, when the elder Barger, it is alleged, used the ax. The assailant was arrested and waived an examining trial and were held under \$500 bonds each for their appearance at the next term of court.—Courier-Journal, Sunday, April 14.

A BIG HOG.

St. Mary's, Ky.
Since I have been here I have been informed of a very large pig that was killed in this section this winter, which after being cut up weighed as follows:
Lard produced 400 lbs
Hams and shoulders 60 lb each, 240 lbs
Sausage 25 lbs
Head and Jowl 75 lbs
Gross waste 100 lbs
Total 840 lbs
I have a witness to this statement.

CHICKENS AND EGGS.

The S. H. Grinstead Co., produce dealers, bought during the month of March 33,350 dozens of eggs and 5,757 chickens, weighing 28,294 pounds. The month above recorded beats any period of a like time since the opening of the house at this point.

GIVE WAY, GENTLEMEN!

We are informed that the only hindrance in the building of the Green county pike to the Adair county line as heretofore mentioned is that three or four people refuse to give the right of way through their farm into Greensburg. In view of their own interests, in view of the public good, the advancement of Greensburg and Green county, we can't see or understand why any one should take such a position. There is not a doubt that every farm through which the pike would pass will be enhanced in value from 25 to 100 per cent. Those standing in the way of this enterprise evidently are blocking their own interests as well as the welfare of their entire section. We trust that all these troubles will disappear when the proposition is viewed from its real worth, by those holding up the concessions needed for its speedy settlement.

"WHAT SOME MEN SAY."

Editor News:—

Of what consequence are some men's opinions any how? When advanced concerning their fellowman—usually the man who they make slight remarks about are far superior to those making the remarks in both character and standing. I have known men in Columbia and know them now, who take a delight in attempting to bring some of our own citizens into disrepute by telling a malicious lie on them for something they never existed, but what they would have uninformed people believe is the truth.

I have no respect for a hypocrite who will practice this kind of a thing on his fellowman and he is not entitled to any just consideration from men who have a fair and impartial regard for their business and social equals in this life.

Men who try to destroy men's characters and reliability, are a great deal lower down than those they attempt to injure; and women or men who with gossip and vile declarations and without a just cause, use every effort to lower the virtue and chastity of their sister sex, are devils on earth so to speak, and they will doubtless receive a liberal portion of the punishment prescribed for such people throughout the ages of eternity. F. McL.

NOTICE TO ROAD OVERSEERS.

It has been a bad winter on our roads and they need work very bad. Let each overseer work his section at least two days this Spring and that will leave two days for repairing the roads in the fall, getting them ready for winter.

If any overseer has a road that needs restricting or is lapped over on another section, if he will let me know it I will try to remedy it and if any overseer or citizen knows of any section or piece of road that needs changing, and will let me know it, I will see what can be done in the matter. I hope every overseer will use as many plows and teams as he can on his road, the work is done much faster and better with plows than by hand. Each overseer working the roads nearest Columbia should work his section at once as these are the sections that have suffered most during the winter and need repairing the worst. I suppose there will be no public money expended on the road this summer and for that reason we will have to work it the better by hand. Jo. N. CONOVER.

MALONE LOSES A VALUABLE CITIZEN.

Mr. Melvin A. Traylor left last week for Ft. Worth, where he has accepted a position as cashier with Wm. Reeves a capitalist in that city.

Mr. Traylor has been a citizen of Malone only eighteen months but in that short time he has made and can number his friends by the score. In fact it could be said with out any exaggeration that he leaves not a single enemy.

That the Malone Bank, for the past eighteen months has enjoyed a business unprecedented by no other life size in the county can be largely attributed to energy, courtesy and popularity of Mr. Traylor. In every laudable undertaking of every movement that was the interest of Malone, Mr. Traylor was always at the

front. No sacrifice was to arduous for him when in Malone.

Such a citizen Malone can not afford to lose. That he will be missed is evident from the expressions of regret from everyone when it was learned that he was to sever his connection with the Malone Bank.

While we regret to see him leave yet we congratulate him on his promotion and he and amiable wife have the best wishes of everyone in Malone for much happiness in their new home, feeling assured that in their new home they will soon make as many friends as they left in their old.—Malone (Tex.) Register.

The above clipping concerning a former Adair county boy will be read with interest by all.

GOOD ROADS.

PICKETT, KY.

It looks like the pike in Green county is a sure thing for there has been a good supply of toll collected on a piece of dirt road between the great bridge spanning Green River and Gresham. There is one piece of road about 150 yards in length that has been impassable for some two months. The fence has been pulled down, and the people allowed to pass through just inside the fence by paying 50 cents for a four horse team, round trip, 5 cents for a horse back rider, and all other mounted passengers paying prices ranging between. This looks like people are in favor of toll gates. The land run over in this field is thin and not worth \$2.50. I think the county could force a road at this place for \$20, yet Fiscal Court met during this time, and I understand nothing has been done in regard to this road. In my opinion there has been at least \$50 toll collected at this mud hole. This looks like Green county is interested in good roads. Adair should build a pike to the Cumberland river.

NORTHWEST TEXAS.

100,000 acres of rich Texas land, convenient to railroads, produces finest alfalfa, cotton, corn, also a good stock country. The climate is ideal and the altitude about 2,500 feet. All kinds of fruits do well. Price from \$10 and up per acre; cash and balance to suit purchaser. Any one desiring to investigate this proposition write T. L. INGRAM, Camp Knox, or call at the News Office. 21-1t

Miss Anna Stults entertained a number of her friends Saturday evening at her home on Burkesville street. Refreshments were served and the evening was very enjoyably spent. The following young ladies were present: Misses Carrie Walker, Mollie and Nona Jeffries, Edna Lewis, Minnie Kemp, Nona Powell and Sue Baker.

Rev. J. Frank Turner and family were dumped in Pettitsfork last Sunday. While crossing the creek the horse began kicking and to save themselves jumped out of the vehicle. No serious harm resulted. Mr. Turner was kicked, but not severely, and all got wet and thoroughly chilled.

Rev. Thomas Hadley, Rows Cross Roads, Russell county, is confined to his room with a complication of ailments. Those who know Mr. Hadley admire him for earnest, consecration to duty and trust that he may soon recover and be spared for many years to labor in his calling.

THE SPRING painting is a task of no little importance to property owners. Up-to-date painters recommend Green Seal it's pure. W. F. Jeffries & Sons.

Bridgeports & Estes, of Edmonton, were refused renewal of liquor license because the local option people secured a larger list of petitioners than the whiskey men.

The Cumberland Fiscal Court has endorsed road building, elected a road supervisor and authorized the purchase of machinery, tools, etc. Adair is still in the mud and its growing deeper.

The band boys, under the efficient instruction of Geo. W. Lowe, have attained a great degree of proficiency and their entertainment on the evening of April 23rd should be witnessed by a large audience.

THE EARLY HISTORY OF MELVIN WHITE.

(By U. L. Taylor)

CHAPTER V.

After Melvin's escape from the cave there was nothing more of a startling nature took place in his history until his difficulty with Logan Bomar. Logan in some manner became indebted to Melvin in the sum of sixty cents, the debt was due and unpaid, and there was no offset against the same. Melvin, like most boys in the country, was short of funds, and he appealed to Logan to pay him what he was owing. Logan turned a deaf ear, and an empty pocket to all Melvin's intreaties until he resolved to have that money or blood. He would collect that money or die in attempt. Accordingly, he armed himself with a shotgun, a murderous knife, a club, and a pocket full of rocks, and sallied forth on his murderous errand.

Logan lived in his immediate neighborhood, and the journey was not a long one. Melvin went unattended by anybody, except his faithful "arms." He found several colored men at Logan's house, the brethren and friends that he had gathered in his defense. Melvin walked up in front of the colored domicile and in thundering tones demanded the surrender of the whole outfit, and especially the sixty cents. Logan replied that he intended to pay him the sixty cents at the earliest opportunity, but at that time he was without the means to do so, but if Melvin would give him a little time he would pay the full amount with interest. Melvin replied that he had heard that same tale so often that it was worn threadbare, and he would listen to no longer.

Melvin began to brandish his arms, and the colored party retreated into the house and barred the door. Melvin got a glimpse of Logan through the window and opened a volley with his shotgun, and set the bed on fire, and raised a terrible consternation among the female portion of the family, and by the use of much water the flames were subdued, and the bed saved. Logan sent his brother, Dud, out with a flag of truce to confer with Melvin, but Melvin misjudging the nature of his errand clubbed him and felled him to the ground.

Melvin then withdrew his forces and everything became quiet. When he in a short time returned, aunt Winnie, Logan's mother came to the door and paid the sixty cents, and everything became quiet. Melvin went home happy in the possession of his money, but the happiness did not long continue. Logue swore out a warrant against Melvin, charging him with shooting with intent to kill, assault and battery, trespass, breach of the peace, misdemeanor and all the crimes known to the catalog, and he was promptly arrested and placed under bond to appear before Esquire of the Harmony precinct for trial. When the court convened Melvin was on hand, the County Attorney was there to prosecute. The defendant took charge of his own case. He pleaded not guilty and the trial began. The Commonwealth had two witnesses, Hawk Morrison and Dud Bomar. The Court after briefly referring to the statutes, demanded of the prisoner his name. Melvin White your honor. Well Mr. Melvin White, you have been fotch before me charged with all the crimes they could bring agin you, now have you anything to say why the judgment of this court should not be pronounced

agin you. Melvin told him to proceed with the trial. Mr. Hawk Morrison was sworn and deposed as follows: He was at Logue's on the morning of the difficulty, and Melvin came trying to collect sixty cents that he said Logue owed him. He had a gun, a big knife, a club and a rock in each coat pocket. Logue and us all run into the house, shut the door and fastened it. To keep Melvin from getting in, and Melvin, he seed Logue through the window and shot at him, and sot the bed afire, and we uns was skered and put the bed out. Melvin then went away, and in a little bit he cum back. What did he go away for? asked the Attorney; "I lowed he went after weepens." Then Logue's mother lowed she'd pay Melvin, and then Melvin, he seemed satisfied.

Dud Bomar was then examined. Mr. Bomar, said the lawyer, tell this court what you know about this fight. "Well, there wernt any fight, Melvin is a very clever feller, and was just mad." Did not Melvin shoot at your brother, Logue? "Yes, but Melvin was just mad, Melvin did not mean any harm." Did he set the bed on fire? "Yes, but Melvin did not aim to do that, he shot at Logue and he missed Logue and hit the bed, did not burn the bed much, we all put it out." Did you get knocked down? "Yes, but thats very common in a fight, Melvin was just mad, Melvin's a very clever feller. Aunt Winnie, thats Logue's mamma, she lowed she'd pay the sixty cents, and she said to Melvin, said she." Dont tell, said the Attorney, what somebody else said, tell what you saw. Thats what I'm comin to, Aunt Winnie says to Melvin, says she; this court can't hear what aunt Winnie said, thundered his honor. The witness raised his voice several degrees, and began, Aunt Winnie says to Melvin; Silence, shut your mouth, this court are got as good ears as any man, but they aint for to hear no old mans gobblement thout its under oath. But Squire I thought, shut your mouth, a witness has no right to think in court. Now sir, go on with your statement, and dont go circumlocutin all over God Almighty's earth, or this court will find a way to substract the truth from you.

COLUMBIA'S PIKES

As Viewed By The Cumberland County News.

We are informed, through a reliable source, that Columbia has "backed square down" on her proposition to build her share of the pike to Greensburg. Our informant stated that Greensburg has raised her share of the money and put it up to Columbia to do likewise where they (Columbia) refused to do anything of the kind. Greensburg then told Columbia if Adair county would build five miles of the pike Green county would build the remaining portion. Columbia gently informed them they could do nothing of the kind and as a last resort Greensburg said they would build the entire line themselves as they were determined to have the pike. This is the same Columbia that "proposed" to join Cumberland county in a pike. Burkesville sent a committee to investigate their "proposition" and it required about thirty minutes of said committee time to discover that Columbia was more than willing to "talk" about pikes if some one else would build them, but when the time came to talk about the finances required for said undertaking Columbia was not there. It seems to us that Bro. Harris of The News and Bro. Stapp of The Spectator have not been treated right in the matter, as they were given to understand that Columbia wanted pikes and her citizens were ready to help build them, and with this belief they published statements which led to the matter being taken up by other towns that compelled Columbia to show her hand.

The News is correct in the above statement. Not only has Columbia "flunked" but the Adair Fiscal Court as well. This body has decided that Adair's roads are good enough, and confidentially, we expect they will build a wall around the county at the next term.

Rest is the great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing, no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last Dyspepsia takes hold. Indigestion is just a warning, and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness. Kodol is sold on a guarantee relief plan. It is sold here by Page & Dohoney.

ROAD PROPOSITION.

Whereas for the past several years the clamor for good roads has been very great from all parts of the county, and whereas, tax-payers of the county have come to realize that money spent in making and maintaining good highways, is the most profitable investment that could be made from the stand point of a county:

Be it resolved by the Columbia Commercial Club that the following system of building and improving the highways of Adair County, which system has been carefully worked out, be presented to the Adair Fiscal Court for its consideration at the April term, 1907, and that a committee be appointed by this Club to present said system to the Court, and to urge that the Court adopt and put same into execution. The said system set out in full was as follows:

That, the Fiscal Court make the following propositions to the citizens of Adair county who are interested in good roads: That in the year 1907, Adair county will build two miles of pike on each of three of the following roads, viz., Columbia and Greensburg, Columbia and Gradyville road, Columbia and Burkesville road, Columbia and Jamestown road, Columbia and Somerset road and Columbia and Stanford road. On account of amount of traffic and number of people accommodated, said two miles of pike to begin at the corporate limits of Columbia, and extend two miles, provided that the citizens or persons directly interested in each of said roads should subscribe and secure the payment of \$300 per mile towards the construction of same. The first three of the above named roads which shall file their subscription list amounting to the sum of \$300 per mile, with the County Judge, said list or amount thereof to be secured and same approved by the County Judge, shall be awarded two miles of pike, each to be built in the year 1907. And hereafter any of the roads above named having no pike, or the ones having the least mileage of pike shall be given the preference in building pike, when they shall have raised their subscription as above required. And provided further that said proposition shall be accepted by the citizens, and their subscription lists, properly secured, be filed with the County Judge by the last day of May 1907; and that in the event only one of said roads accepts said proposition by the first day of May, then the road so accepting shall be given ten days further time to file an additional subscription list amounting to \$300 per mile for either one or two additional miles, and if such condition be complied with, then the County shall build one or two additional miles of pike for said road of provided for by said additional subscription.

Whereas the kind of pike required depends on the amount and nature of traffic that goes over same, the County divides pikes into three classes, A, B, C, and will hereafter classify the roads to be piked. The pikes of the A class shall be built according to the following specifications: The grade shall be 16 feet wide, as nearly smooth as practicable, and be 8 inches higher in center than at outside edge of road bed. The metal on said roads shall be 12 feet wide and 12 inches deep, placed on road bed in two layers or stratas as follows: bottom layer shall be 7 inches deep and consist of hammered stone broken so as to pass through a five inch ring, and spread uniformly. The second or top layer to consist of crushed stone five inches deep spread uniformly. The metal after so placed shall be shouldered with dirt so as to prevent same from spreading. And said road shall have a clear right-of-way of at least 40 feet, and all fences and obstructions moved therefrom.

Pikes of the B class shall be built according to the following specifications: the road shall be 16 feet wide, and be four inches higher in center than at outside edges, and slope regularly from center to outside edges. The outside edges of said road shall not be less than 8 inches above the bottom of the ditches at each side of the road, and said ditches to be not less than two feet wide at the bottom. The metal on said pike shall be 10 feet wide and 10 inches deep, and same to be placed in two layers or stratas as follows: the first or bottom layer to be uniformly 6 inches deep of stone broken so as to pass through five inch ring, and second, or top layer, to four inches deep

uniformly, of crushed stone, and said metal to be shouldered with dirt as to prevent same from spreading. And said road shall have a clear unobstructed right-of-way of at least 25 feet.

Pikes of the C class shall be according to the following specifications: Road bed shall at no place be less than one foot above the bottom of ditches on each side of same, and said ditches to be at least two feet wide at the bottom. The metal shall be 8 feet wide and consist of one layer 7 inches deep of crushed stone or stone broken so as to pass through a three inch ring, or clean clear gravel, and said metal shall be shouldered with dirt so as to prevent it from spreading. And it is further specified that pikes of all classes shall have culverts where the drainage requires them.

It is further recommended that the road beds for said pikes shall be graded by the county under the supervision of the Road Supervisor, and that he reduce all acute grades to the lowest practicable limits, either by cutting down or by changing a road bed, and that the putting of metal on said roads shall be done by contract with the lowest bidder who shall make bond for the faithful performance of said contract as required by law. The said contract to be let by the mile, the length of bridges along the way not to be counted. The said contract for putting metal on roads shall be let to the lowest and best bidder as per specifications above set out, by the Road Supervisor and County Judge acting in conjunction after said contracts have been advertised for one month in each of the county papers and by typewritten posters at Court House doors. The Road Supervisor in making said road beds may employ such teams as are necessary from persons who have subscribed to the building of the road where such teams are used, and that they be allowed \$2.50 per day of 10 hours each deducted from their subscriptions to said road for each team and driver, and may employ any of said subscribers who are able bodied men, to work on said road and allow them, deducted from their subscriptions, 10c per hour for each hour they are actually engaged in work on road; but shall employ no person or team unless their services are actually needed. And in doing said grading the Supervisor shall work such county prisoners and delinquent capitation tax-payers as are available under the law.

It is further recommended that a committee of three which shall include the County Judge, shall be appointed to inspect and examine such work of macadamizing as may be done under contract, which committee shall serve without compensation except their necessary expenses in making said inspection. When the committee shall have inspected and examined said work and approved same, and determined that the contract for same has been completed and complied with in every requirement, and shall file a report to that effect with the County Judge, the Road Supervisor shall draw his warrant to pay for same as per contract and same to be approved by the County Judge, as required by law. That said Committee shall employ some person who is competent and reliable and beyond any undue influence, to be present at all times while metal is being placed on said roads under contract, whose business it shall be to see every load of stone placed on the roads and to see that the contract is in every way complied with, and if same is not, to mark places and report every deficiency to the committee, and said committee shall not receive or approve such work unless performed and completed according to contract.

Whereas, persons not owning a stone crusher are not in a position to compete in bidding for putting metal on roads, that the greatest competition may be secured, it is recommended that the Court direct the County Judge and Supervisor acting in conjunction, to purchase one rock crusher for the county, and that said Judge and Supervisor may rent same at a fair rent value to any one contracting with the county to macadamize road, and that pay for said rent be deducted from amount to be paid him on contract.

Whereas, the expense and difficulty of hiring teams to run the grader is very great, it is further recommended that the County Judge and Supervisor be directed to purchase one traction engine, most suitable for operating adair and running crusher, and that

said crusher and engine be paid for out of the road levy of 1907.

It is further recommended to the Court that it make the following proposition to the citizens in any part of the county: That upon any of the county roads in Adair County where gravel is accessible, that in the year 1907, if the citizens along any road will organize and file their petition with the County Judge and bind themselves to put gravel on the county road 8 feet wide and 7 inches deep, the county under the supervision of the Supervisor will grade and prepare said road for the gravel and will pay to said petitioners the sum of \$100 per mile for traveling same provided same is graded according to the specifications above named and approved, after inspection, by the County Judge and Supervisor, and that said money be paid out of the levy of 1907; and provided too that no less than one mile be so graded, though not necessarily a continuous mile. And provided that no voting precinct be awarded more than two miles each year.

And further that the Court may withdraw any or all of the propositions concerning road building heretofore set out, provided it does so before the citizens have accepted same, and complied with the terms and conditions imposed upon them thereby.

And it is further recommended that the present system of working dirt roads by warning in hands be continued. And the rate of taxation for road and bridge purposes for the year 1907 be fixed according to 25c on the \$100 worth of taxable property.

What is it that tastes as pleasant as maple sugar and quickly relieves coughs and colds? Mothers who have used it will quickly answer: "Kennedy's Laxative Cough Syrup." The pleasant cold remedy that expels the cold through its laxative action on the bowels. Conforms strictly to the Food and Drugs Law. Contains no opiates. Sold by Page & Doherty, Columbia, Ky.

Democratic newspaper devoted to the interests of the city of Columbia and the people of Adair and adjacent counties.

WED. APRIL 17, 1907.

Where are we drifting? What will be the condition of our county a few years hence? What will become of the spirit of enterprise that has gained footing in this part of the country within the last few years, and gave us an unprecedented growth and development in town and county? Where is the person who can see a bright future for this section unless progressive steps are taken? In justice to the powers that be, in truth and in earnest, there ought to be some plan devised by which the building of good roads should begin this year. The recent session of the court evidently does not hold hope to those who want better roads; it only tickles the fancy and satisfies the ambition of the few who are content to live under present circumstances. The Magistrates alone are responsible for this; they are bound to realize the necessity of better roads; they cannot fail to see that their action does not meet the requirements; that it is suicidal to take a backward step. They are bound to know that the public roads of this county are the most formidable obstructions against thrift and enterprise. While some of them may feel gratified over the defeat of the plans submitted by the Commercial Club; while they doubtless pride in reducing the tax, yet, by and by, the mistake will finally show up with compound interest. It is to be regretted that some members of the Court could not rise above their prejudices, prove broader than their districts, and give to Adair county the first thrilling impulse of substantial roads—inaugurate a system that, in the course of a few years, would have secured many miles of solid pike. The Club labored hard to devise plans with no other motive than to best serve the entire county. It had no thought nor desire to dictate to the Court, and no member of it was asked or expected to do any thing to advance the proposition not consistent with an open, honest presentation of the plans and purpose. The Fiscal Court of this county can not dodge the responsibility by accusing the club of unfair motives; it can not satisfy the people by wiping out the tax and leaving the roads almost impassible. The Court in justice to the reputation of Adair county, in the face of most urgent needs, and in obedience to the desire of the people, ought to reconvene itself, take up the road question alone, and establish a system that will add to the assets of this county each year. If we could build 6 miles a year, 10 years would soon pass and hand over to the people 60 miles of macadam road. The Club will stand hands off, or give its assistance. Read the proposition submitted by the Club. Figure out what it would accomplish in 10 years, then figure it for 20

years. It you find it defective, suggest a better plan.

The Fiscal Court of Knox county has ordered the building of several bridges.

The people of this county want better roads; They are willing to be taxed to get them. Who wants a wall placed around the Court House?

Clinton County wants better roads, and the Fiscal Court of that county made a road levy of 25 cents to the \$100, the legal limit.

Should the town council follow the example of the Fiscal Court the public square would be a mud hole, the streets become impassible, the lights cease to burn, decay follow and tax be reduced.

The fiscal court of Clay county has proven game. It starts the building of macadam roads, and Knox county joins in. Where is lovely, progressive Adair?

Everybody in Adair county ought to make arrangements to visit Columbia when that wall is built. It will probably be finished before the roads get impassible next Winter. That is if it is built in 1907.

The Hart County Fiscal Court has decided to start the building of pikes and starts at the corporate limits of Munfordsville in nearly every direction.

Did you ever think that the court house would be walled in? Have you ever counted the cost? Do you know any reason why it should be done? The Columbia Commercial Club did not present the plan, and did not ask for its building.

The Fiscal Court of Pulaski county has taken steps to have a \$250,000 bond issue ordered, by a vote of the people to be used in building pikes in that county, and it is stated that the proposition will win at the polls. How much like Adair county!

The Fiscal Court at its last meeting, knocked out the road tax, refused to build a bridge at a very important crossing, made no provisions for bettering the public roads, discredited the motives, and impugned the efforts of the Commercial Club, but it favored a stone wall built around the Court House.

Many of the people will not get to visit the Jamestown Exposition. Many will never see the old fort with its massive walls, but every citizen in Adair ought to come to Columbia and bring his wife, sons and daughters to view the court house with its strong wall of stone around it, and adorned with an iron fence on top when it is built.

The Legislature of Tennessee, has taken an advance step, but doubtless a wise one, one that will result in great good to that Commonwealth. It created a public road commission, and appropriated \$1,000,000 to build roads. That body of men can't claim kinship with the Adair County Fiscal.

If there are any reasons why the Court House should be walled in, we would like to hear them. If there has been a demand for the spending of the public money for such a thing we would like to know from whence it came. Adair county will present a novel appearance next Winter

if the Temple of Justice is protected by a stone wall and highways almost impassible.

The people on the Greensburg road are now trying to get together and build a mile of pike, beginning at the corporate limits of Columbia. The plan under consideration is to agree for every farmer to pay 50 cents per acre whose land touches the road on the proposed pike. It is highly probable that the move will succeed, and if so, it will start the ball to rolling.

Mr. James Garnett has been selected as a member of the State Democratic Campaign Committee, filling the place of Judge Robins, who retired from that position some time ago. The selection of Mr. Garnett is no mistake. He is a Democrat who desires victory, and has the ability, sagacity and unyielding determination that never fails to bring desired results. We are proud of the confidence and recognition manifested in one of our most progressive young men, and feel certain that he will measure up to the full requirements and expectation of those who selected him, to all the aspirants and the party in general. He will add strength and bouyancy to the campaign.

Is it possible that some of our Magistrates, the directors and guardians of Adair, have been reading of the walled cities of

and one that gets more colts than any living horse; and colts that sell for more money than any horse in Kentucky. Will stand at Gradyville, Ky., this season at the low price of \$15.00 to insure a colt. Jordan Peacock has sired more High Priced colts than any Horse I ever knew in Kentucky. There has been more money spent in Adair county for this Horse's Colts in the last 10 years than there has for all other Stallions combined. You can pay \$15.00 for seasons to JORDAN and get two to three times as much clear money as any others. Coffey Bros., & Young paid J. P. Clayton \$600.00 for a two-year-old, and a number of others have sold from \$500.00 to \$2,000.00.

Now if you want a fine Colt and one that you can sell at any time for a Fancy Price, bring your mares to JORDAN and get it. When you breed to him you are not breeding to something that is unknown.

JORDAN PEACOCK has a National Reputation; his colts are being bought and shipped East to New York City, Boston, Texas and a number of other places where fine horses are wanted.

Kentucky King,

Four years old, sired by Red Squirrel, No. 53; dam by Alexander Lexington, he by Cabbells Lexington 2; dam by Artest No. 75. KENTUCKY KING is a full brother of Silver King that won the championship at the St. Louis World's Fair and later sold for \$2,000.00. Will make the season at \$15.00 to insure a Living Colt. KENTUCKY KING is full 16 hands and is a fine combined horse. Bring your mares to my stock if you want something good. Money due when Colt is foaled or mare traded or leaves the neighborhood. Mares fed at cost of feed. Pasture after May the 1st. at 50 cents per week.

antiquity, of the immensity of stone placed around "The Celestial Empire," and while wandering in their imagination through the past ages, viewing the stupendous work of ancient times, returned to their native land without passing over the Macadam roads of Greece and Italy. Is it within the limits of reason that the majority part of the Court, that part that knocked out the Commercial Club, still flaunts defiance, and holds the club to be such a menace to the public good as to justify them in walling in the Court House. This position reminds us of economy recklessly applied. The battle cry of the people—lift us out of the mud and mire—help us build substantial roads, has been answered with an order to blot out the road tax.

ARWED--The German Coach Horse.

This horse, great in breeding, size, form and strength is the one so badly needed in this part of the country. One of the most pressing needs in horses is size and that should not be overlooked by those who desire to breed. In Arwed the German Coach Horse, you get size, form and action, the three essentials to an all round desirable horse. His first colts were foaled last Spring and out of the entire number there is not a weakling nor one that shows beefy makeup. They are game, neat and fine size and some of them approaching models. No one who appreciates size with form and other desirable features can find a flaw in a single colt. He will serve at \$10 to insure a living colt.

Pedigree.—ARWED, No. 2783, sired by Achin, No. 1059; he by Achilles, No. 1313. Dam, Ardo, No. 1000 by Agammennon, No. 560. Arwed is a beautiful brown horse, 16 hands high and weighs 1250 pounds. He is a model horse in size and action.

TWO FINE JACKS.

WALLACE WOOD, a fine Jennett Jack, will serve at \$7. He is 15½ hands high and has proven his worth in siring Jacks as well as halfbreeds.

WALLACE WOOD was sired by Gov. Wood, he by Wood's Black Jack, Tip Top, he by Peter's Black Hawk, he by Royal Mammoth, he by Old Imported Mornings Mammoth. Dam by Black John, 15½ hands high; second dam by Sampson, 15½ hands high; third dam by Thompson's Black Jack, 15½ hands high; fourth dam by Tom Salter's Mammoth.

JACK CHINN, is a black Jack with mealy points, not too large neither too small, but has proven himself an excellent breeder. Some of his colts sold last year for \$100.00. He will serve at \$6 to insure a living colt.

All care will be taken to prevent accidents but not responsible should any occur. Mares will be fed at cost and pastured at \$2.00 per month after May 1st.

Mr. John Humphress who has been sick for several months is no better.

Mrs. M. H. Quinn and little daughter, Bess, and Mrs. T. Bowen were visiting G. O. Hancock and family last week.

The spoke factory at this place is running over time on account of being behind with their orders.

DIRIGO.

The recent freeze has killed about all the fruit in this section.

Hall, the machinist of Marrowbone, was here last week doing some work on Dr. J. L. Stapp's mill.

Jeff Jones, the broom maker, of Crocus, visited our section last week and prepared the good house wives for sweeping.

J. G. Campbell was in Columbia on business Thursday.

Dr. J. L. Stapp is in a very critical condition at this writing.

Born, to the wife of J. M. Campbell on the 6th, a daughter.

G. W. Stotts is very sick with pneumonia at this time.

GLENSFORK.

Messrs. Lewis Morgan and J. V. Dudley, were before the Fiscal court, Thursday to testify in behalf of good roads.

The damage to the fruit crop by the frost is not so extensive as it was at first thought to be. There will be a full crop of apples everywhere and except on very low lands there will be a fair crop of pears, peaches, and plums.

Married on Sunday, March 31st, Miss Pearl Wesley to Mr. John Grider. The bride is a daughter of Mr. J. B. Wesley, of this place and the groom is a son of Mrs. Jennie Grider, also of this place. This couple, while rather young to launch on the matrimonial sea, we predict that owing to the amiable disposition that characterizes each of them their sailing will not be tempestuous.

There is a wedding epidemic prevalent in our neighborhood which is spreading to an alarming extent. No fewer than twenty-one persons have committed matrimony within the last few months and if we continue to wed at the present alarming rate no unmarried person will reside here a year from date.

The disease is confined principally to what is known in the books as love infatuation. A number of our youths has been attacked by the mania and every serious case has proved fatal.

WEED.

We are certainly thankful for the recent showers.

Born to the wife of W. P. Montgomery, the 31st, a son.

Mrs. Lou Sneed and two sons are on the sick list.

Mr. and Mrs. Noah Harris, of Edmonton, passed through here Wednesday, enroute to Gradyville where they will visit friends and relatives for a few days.

Gardens have most all been planted.

The singing at Mr. Thomas Cole's Sunday evening was a success.

Mrs. Kate Gowen gave her husband, Mr. T. F. Gowen, a surprise birthday dinner on the 30th, his sixty fifth anniversary. It goes without saying that the occasion was highly enjoyed by all present.

Messrs. Noah and Finis Wilson, of LaFayette, Ind., were visiting their brother, Mr. Corda Wilson, part of last week.

Married, on Sunday, the 31st, Miss Annie Whitehead to Mr. Malon R. Brown, Rev. G. C. Compton officiating in his usual impressive manner.

There are a few cases of measles in our town.

At the hour of 7 o'clock Wednesday evening at the sound of "Fire! Fire!" everybody ran. It was soon found to be W. C. Sneed's barn that was on fire. The roof being perfectly dry and the barn being filled with hay and fodder, the fire was uncontrollable. Two work horses, one colt, bridles, saddles, harness, and one buggy belonging to Thomas Sneed was consumed by flames in a few seconds. It is not known just how the fire originated, but is thought to have been by sparks flying from the burning of brush in a field near by. The damage is estimated at not less than \$500, with no insurance.

Died on the 3rd, an infant child of Mr. and Mrs. James England, of double pneumonia.

Misses Bertha Hamilton and Carrie Compton, of Nell, were

COMMISSIONER'S SALE OF LAND

GARRARD CIRCUIT COURT.

G. A. Traylor's Adm's, Etc, Pliffs.

vs
G. A. Traylor's Heirs & Creditors, Defts

By virtue of a judgment in the above styled action rendered at the November Term 1906 of the Garrard Circuit Court, I will on,

Monday, May 6, 1907

publicly before the court house door between the hours of 11 a. m. and 2 p. m. o'clock in the city of Columbia, Adair County, Kentucky, to the highest and best bidder, sell at public outcry the following described real property, a one half undivided interest in and to a certain tract of land lying and being in Adair County, Kentucky, one and one-half miles south of Breeding Post Office and is bounded as follows:

Beginning at a stone and sugar tree, thence N 39, E 18 poles to a stone, thence W 31 poles to a hickory and dog wood, thence N 154 poles to a hickory and beech on a branch in an old line, thence 156 poles to a sugar tree and white walnut, thence S 154 poles to a hickory, black and white oak, thence E 15 poles to a white and two chestnut oaks in Patterson's line thence with the division line N 80, W 235 poles to the beginning, containing 200 acres, but there is to be deducted from this boundary about 25 acres more or less, conveyed by G. A. and J. M. Traylor to G. B. Breeding.

The other one-half undivided interest is owned by J. M. Traylor. Said sale is made for the purpose of paying the indebtedness of G. A. Traylor deceased and a settlement of his estate.

TERMS

Said sale will be made on a credit of six months, and the purchaser will be required to execute bond of equal installments payable with good security to the Master Commissioner, for said purchase money bearing 6 per cent interest per annum from date of sale until paid, upon which execution may issue if not paid at maturity the same having the force and effect of a judgment. A lien will also be retained upon the land sold for the payment of the purchase money. J. M. ROTHWELL.

WITH OUR CORRESPONDENTS

Week's happenings—News Important or Otherwise as Reported By Our Corps of Correspondents.

GRADYVILLE.

The weather continues not only cool but cold.

Our farmers are sowing their tobacco beds.

Uncle George Flowers is using lemonade daily for his health.

Will Baker, was here Friday night on business.

Charles Horriferd of Bliss was here Friday looking after hogs.

We are thinking we will be glad to get any kind of fruit this year.

R. L. Caldwell lost a very fine Peacock colt this week.

Mrs. Ella Robertson spent a few days in Columbia last week.

Mrs. Maggie Mitchell and daughter, of Columbia, were the guest of Mrs. L. C. Hindman last Monday.

Miss Beula Scott, of Edmonton, was the guest of Mrs. C. S. Bell last Saturday.

Miss Pearl Hindman, who has been in school for several months at Bowling Green, returned home a few days ago.

Mr. A. T. Sherrill is nearing completion of his new dwelling, which add greatly to the appearance of his premises.

Mr. John Pickett, who has been in school at Bowling Green, for several months was in our town last Saturday and reported that he was well pleased with Bowling Green.

Mr. Time Leftwich, the well-known mill man, of Milltown, was in our midst one day last week and informed us that he had recently moved his saw mill to W. S. Pickett's residence, where he will cut a large amount of lumber.

Mr. Thos. Sneed with two of his children are confined to their beds with Pneumonia fever at this time.

Mr. C. S. Bell, requests your reporter, to say to our friend H. C. Walker, of Gallion, Ala., that the medicine he wanted could not be found in this town, but he knew of a medicine that would reach the case and when directed would forward same to any address.

L. C. Hindman sold last week, to Corbin and Rowe, of Sparksville, a large lot of staves, at a good price.

Mesdames. Naly and Hudson of Columbia, spent a day or so with Mrs. G. Y. Wilson, of our city last week.

Rev. W. H. C. Sandidge preached the funeral of the late Mr. Thomas Kemp at Pickett's Chapel last Saturday.

Mr. C. O. Moss, one of our efficient merchants, recieved a telephone message last Thursday that his service was needed at Ather-tonville, in the revenue business, Mr. Moss started at once for that place.

The millwrights from Richmond, Ind., and Mr. Logan Hag-an our new mill man are busily engaged at this time putting in the new machinery in J. A. Diddle's mill at this place.

The first Sunday in May there will be Sacramental services at Union church, at that time there will be several elders and deacons elected, our Pastor Rev. W. H. C. Sandidge requests every member as far as possible to be present. Everybody is invited to attend.

We the citizens of this part of the county console ourselves that

we will certainly have good roads anyway, during the heated months of the season and judging from the past winter and the condition of our roads it would certainly be wise in us to prepare to stay at home until the warm weather comes again, for we all know it was utterly impossible for us to get any kind of conveyance that was able to pull us through the mud to our county seat last winter. When will the time come when our roads will be improved?

We have heard a great deal of comment on the weather during the recent cold snap.

We take it that Uncle Jerry Wilson, one of the oldest citizens in the western part of this county is one of the best weather prophets outside of Hick's known, Uncle Jerry is a very close observer, noticing all the signs and tokens and he usually hits the mark exactly. He said all the time our fruit crop would be a failure and he can come in six weeks and time in telling when it is going to rain or snow. Uncle Jerry's prophecy is that we will not have any good weather until after the 15th of this month, then we will have sunshine and happiness.

Died on the 10th, at his brother, Squire Kemp, Mr. Jo Kemp, age 58, years, with consumption, he bore his affliction with great fortitude and when the end came he was ready. His funeral services were conducted by Rev. G. Y. Wilson.

Born, to the wife of Thomas Moss, on the 6th, a son. Mother and child doing well.

CANE VALLEY.

Oh! these cold winter days. We have had enough cold weather since fruit trees budded to know that we will be short of a fruit crop this time.

Wheat is said to be looking good, early oats not so good, some complaints of freezing out.

Owen Hardesty was here last Friday looking after stock.

Mrs. Varie Moore left Tuesday for New Albany, Ind., where her husband is now located. They will reside in that city.

Rev. W. A. Grant, of near here later of Ohio County, is spending a few days with friends and relatives in this community.

R. B. Wilson made a business trip to Campbellsville and other points the latter part of last week.

The sale at the residence of C. S. Moore on the 11th, was not largely attended on account of the cold weather. Nevertheless everything brought fair prices.

Mrs. Nancy Bumgarner, mother of Mr. Jeff Bumgarner, this place left last Friday for Dawson Ill., where she will spend the summer months with relatives and friends.

Married, at the residence of the brides parents Mr. Beriah Grant to Miss Annie Louise Edrington last Wednesday at 4 o'clock, P. M. The ceremony was performed in a very impressive manner, by Rev. W. A. Grant, Bro., of the bridegroom. Your correspondent joins their many friends in wishing them a happy and prosperous voyage through life.

Mrs. Nancy E. Rice, of Green River Bridge and daughter Mrs. Ida Bell Buchanan, of Louisville, was visiting the family of E. C. Sublett on Thursday.

Most farmers are ready to plant their corn as soon as spring begins. Some have planted.

McLean Lumber Co. have again begin to fell some of their large timber located near here, hands are now cutting every day.

Messrs. J. W. and S. T. Judd, carpenters of this place, are now working in your town.

Mrs. H. W. Wilson and Mrs. W. L. Miller, were visiting relatives in Campbellsville a few days last week.

Eugene Rice, wife and little daughter, of Campbellsville Ky., spent a part of last week with friends and relatives at this place.
